MSDIS General News

In the first steps towards completing a task that has been on our to-do list for a very long time, we added a series of sixteen state agency logos to the MSDIS Open Data page. These logos are hyperlinked to redirect users to the homepages of each respective agency. In effect, this is just a more visually interesting way of replicating part of our existing Partners page, but this is something that we've wanted to explore since the initial rollout of our Open Data site. In addition to advertising our partner agencies directly on the front page, this section helps reinforce the relationship between MSDIS and the State of Missouri. The section is still a work in progress. MSDIS doesn't directly work with all the agencies displayed, and there are a few partners entities that we would like to add to the assortment. Special thanks to Tracy Schloss for providing the high-res logos that were used to complete this project.

MSDIS Downtime

MSDIS was temporarily offline on 22 October 2021 due to a larger University of Missouri network outage. Downtime lasted approximately an hour. Since this outage took the entire Mizzou network offline, we were unable to alert our users via the MSDIS email account so we relied on the MSDIS Twitter account and one of Tom's personal email accounts to provide status updates.
