MSDIS General News

MSDIS said goodbye to a longtime friend and coworker in November – our plotter. While the plotter had served us well for many, many years, University Printing services Simply provides a much more affordable printing option for what MSDIS requires. Between the cost of routine maintenance and supplies, operating our own plotter simply hasn't been a good option for us for a long time considering how infrequently we actually use it.

Of course, MSDIS will remain available for map creation for school districts and the like – indeed, providing affordable mapping options for Missouri school districts has been a great way to give back to the community - we will simply reengineer our service costs to reflect the University Printing Services schedule of charges.

MSDIS Downtime

No outages were reported during November 2021.
