## **MSDIS General News**

We have entered what we believe to be the final phase of server setup before testing. As of the writing of this report, the MSDIS Imagery Server replacement is up, running, and serving out nearly all of the same image services available on the existing MSDIS Imagery Server. We are currently waiting on the Division of IT to issue an HTTPS certificate to complete the Web Adaptor installation.

Unrelated to server things, we had a really wonderful time at the MAGIS 2022 meeting. It was great to see so many old friends in person for the first time in what seems like forever and we can't wait to get together with the other clearinghouses later this summer.

We would also like to thank everyone who supported MSDIS for the 2022 MAGIC GIS Coordination award. We remain flattered and humbled by the continued support of this wonderful community of GIS professionals and we hope we can remain useful for many years to come.

## **MSDIS Downtime**

No outages were reported during April 2022.
