MSDIS General News

MSDIS made the link to the new Imagery server available to another round of users in July as part of our continuing efforts to test the rollout of the replacement machine. In the coming weeks, we will share the link publicly and open testing up to anyone subscribed to the MSDIS listerserv or following MSDIS on social media. As mentioned previously, the current link to the replacement server is not final as we intend to route traffic through the current URL once we are done with testing.

MSDIS Downtime

No outages were reported during July 2022.
